EXPERIENCE

- INTEGRTR, *Software Development Engineer*

JUL 2024 – PRESENT

 - Built **INTEGRTR.HRDG 3.0**, a SuccessFactors test data generator that clones employee and organisational data into test systems, from scratch in SAPUI5. Replaced the legacy v2 app within 4 months across **76 merged PRs**.
 - Designed HRDG workflows: reusable templates, filter variants with scheduled runs, a 4-stage run pipeline with run history and reports, and anonymised copies within and across systems.
 - Built **System Comparison** for 7 SuccessFactors configuration areas with match percentages and Excel exports.
 - Backend in **Node.js, Express, Sequelize and PostgreSQL**: a bulk tenant-usage billing API and billing feature flags with data backfill.
 - Internal developer tooling: UI5 rules for the team's AI coding assistant (Claude Code) plugin, a pre-commit XML binding formatter, and CodeRabbit review rules. **530+ merged PRs** since 2023.
- INTEGRTR, *Software Development Intern*

JUL 2023 – JUN 2024

 - Built the **Tenant Admin Portal** in SAPUI5, XML and LESS; added entity caching in the Systems app.
 - Shipped MDGen features: Diversity Package, Custom Help Page, CSV upload and run queueing.
- Coding Ninjas LPU, *Technical Lead*

MAY 2022 – FEB 2023

 - Led the tech team, organised 10+ events and mentored students.
